Acceptance Criteria

FR-001

AC-001.1 - Acceptance for Customer Completes Onboarding - 1 - Description: The system shall make available an onboarding journey to a customer. - Source BR: BR-001 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall make available an onboarding journey to a customer.

AC-001.2 - Acceptance for Customer Completes Onboarding - 2 - Description: The system shall accept the information required for onboarding. - Source BR: BR-001 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall accept the information required for onboarding.

AC-001.3 - Acceptance for Customer Completes Onboarding - 3 - Description: The system shall allow the customer to complete the onboarding journey. - Source BR: BR-001 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow the customer to complete the onboarding journey.

FR-002

AC-002.1 - Acceptance for Customer Provides KYC Information - 1 - Description: The system shall accept KYC information from the customer. - Source BR: BR-002 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall accept KYC information from the customer.

AC-002.2 - Acceptance for Customer Provides KYC Information - 2 - Description: KYC information is captured for the simulation; it is not verified against any real authority. - Source BR: BR-002 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: KYC information is captured for the simulation; it is not verified against any real authority.

FR-003

AC-003.1 - Acceptance for Customer Provides Aadhaar and PAN Information - 1 - Description: The system shall accept Aadhaar and PAN information from the customer. - Source BR: BR-003 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall accept Aadhaar and PAN information from the customer.

AC-003.2 - Acceptance for Customer Provides Aadhaar and PAN Information - 2 - Description: Aadhaar/PAN verification performed by the system, if any, shall be format-only and mocked. - Source BR: BR-003 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Aadhaar/PAN verification performed by the system, if any, shall be format-only and mocked.

AC-003.3 - Acceptance for Customer Provides Aadhaar and PAN Information - 3 - Description: The system shall not perform real identity verification against any external authority. - Source BR: BR-003 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall not

perform real identity verification against any external authority.

FR-004

AC-004.1 - Acceptance for Customer Activates an Account - 1 - Description: The system shall allow a customer account to be activated. - Source BR: BR-004 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow a customer account to be activated.

AC-004.2 - Acceptance for Customer Activates an Account - 2 - Description: Account activation shall result in an account state that reflects the activation. - Source BR: BR-004 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Account activation shall result in an account state that reflects the activation.

FR-005

AC-005.1 - Acceptance for Customer Login - 1 - Description: The system shall allow a customer to log in. - Source BR: BR-005 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow a customer to log in.

AC-005.2 - Acceptance for Customer Login - 2 - Description: Login shall provide the customer access consistent with role-based access requirements (see FR-019). - Source BR: BR-005 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Login shall provide the customer access consistent with role-based access requirements (see FR-019).

FR-006

AC-006.1 - Acceptance for Customer Logout - 1 - Description: The system shall allow a customer to log out. - Source BR: BR-006 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow a customer to log out.

AC-006.2 - Acceptance for Customer Logout - 2 - Description: Logout shall terminate the customer session. - Source BR: BR-006 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Logout shall terminate the customer session.

FR-007

AC-007.1 - Acceptance for Customer Transfers Simulated Money - 1 - Description: The system shall allow a customer to initiate a transfer of simulated money. - Source BR: BR-007 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow a customer to initiate a transfer of simulated money.

AC-007.2 - Acceptance for Customer Transfers Simulated Money - 2 - Description: Money movement is simulated using synthetic data; no real money moves. - Source BR: BR-007 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Money movement is simulated using synthetic data; no real money moves.

FR-008

AC-008.1 - Acceptance for Customer Receives Simulated Money - 1 - Description: The system shall allow a customer to receive simulated money. - Source BR: BR-008 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow a customer to receive simulated money.

AC-008.2 - Acceptance for Customer Receives Simulated Money - 2 - Description: Money movement is simulated using synthetic data; no real money moves. - Source BR: BR-008 - Priority: UNSPECIFIED -

Acceptance Condition: The system shall demonstrate: Money movement is simulated using synthetic data; no real money moves.

FR-009

AC-009.1 - Acceptance for Customer Views Statements - 1 - Description: The system shall allow a customer to view statements. - Source BR: BR-009 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow a customer to view statements.

FR-010

AC-010.1 - Acceptance for Customer Downloads Statements - 1 - Description: The system shall allow a customer to download statements. - Source BR: BR-010 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow a customer to download statements.

FR-011

AC-011.1 - Acceptance for Bank Operations Reviews KYC - 1 - Description: The system shall allow bank operations to review KYC information. - Source BR: BR-011 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to review KYC information.

FR-012

AC-012.1 - Acceptance for Bank Operations Sets KYC Status - 1 - Description: The system shall allow bank operations to set the KYC status of a customer. - Source BR: BR-012 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to set the KYC status of a customer.

FR-013

AC-013.1 - Acceptance for Bank Operations Activates Customer Accounts - 1 - Description: The system shall allow bank operations to activate a customer account. - Source BR: BR-013 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to activate a customer account.

FR-014

AC-014.1 - Acceptance for Bank Operations Freezes Customer Accounts - 1 - Description: The system shall allow bank operations to freeze a customer account. - Source BR: BR-014 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to freeze a customer account.

AC-014.2 - Acceptance for Bank Operations Freezes Customer Accounts - 2 - Description: A frozen account shall reflect the frozen state. - Source BR: BR-014 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: A frozen account shall reflect the frozen state.

FR-015

AC-015.1 - Acceptance for Bank Operations Views Customer Account State - 1 - Description: The system shall allow bank operations to view the state of a customer account. - Source BR: BR-015 - Priority:

UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to view the state of a customer account.

FR-016

AC-016.1 - Acceptance for Bank Operations Accesses the Audit Trail - 1 - Description: The system shall allow bank operations to access the audit trail. - Source BR: BR-016 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to access the audit trail.

FR-017

AC-017.1 - Acceptance for Bank Operations Login - 1 - Description: The system shall allow bank operations to log in. - Source BR: BR-017 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to log in.

AC-017.2 - Acceptance for Bank Operations Login - 2 - Description: Login shall provide bank operations access consistent with role-based access requirements (see FR-019). - Source BR: BR-017 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Login shall provide bank operations access consistent with role-based access requirements (see FR-019).

FR-018

AC-018.1 - Acceptance for Bank Operations Logout - 1 - Description: The system shall allow bank operations to log out. - Source BR: BR-018 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall allow bank operations to log out.

AC-018.2 - Acceptance for Bank Operations Logout - 2 - Description: Logout shall terminate the bank-operations session. - Source BR: BR-018 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Logout shall terminate the bank-operations session.

FR-019

AC-019.1 - Acceptance for Role-Based Access - 1 - Description: The system shall keep customer and bank-operations journeys distinct through role-based access. - Source BR: BR-019 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall keep customer and bank-operations journeys distinct through role-based access.

AC-019.2 - Acceptance for Role-Based Access - 2 - Description: Actions available to a user shall be consistent with the user's role. - Source BR: BR-019 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Actions available to a user shall be consistent with the user's role.

FR-020

AC-020.1 - Acceptance for Auditable State Changes - 1 - Description: The system shall record state changes so that they are auditable. - Source BR: BR-020 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall record state changes so that they are auditable.

FR-021

AC-021.1 - Acceptance for Synthetic Data Simulation - 1 - Description: The system shall use synthetic identities, accounts, balances, beneficiaries, and payments. - Source BR: BR-021 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall use synthetic identities, accounts, balances, beneficiaries, and payments.

AC-021.2 - Acceptance for Synthetic Data Simulation - 2 - Description: The system shall not use real money, real identity verification, or real banking integration. - Source BR: BR-021 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: The system shall not use real money, real identity verification, or real banking integration.

FR-022

AC-022.1 - Acceptance for Agent Artifact Quality - 1 - Description: Agent-produced artifacts shall be reviewable, reproducible, schema-valid, source-linked, and subject to human approval. - Source BR: BR-022 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Agent-produced artifacts shall be reviewable, reproducible, schema-valid, source-linked, and subject to human approval.

FR-023

AC-023.1 - Acceptance for Requirements Traceability - 1 - Description: Approved business rules shall remain traceable through requirements, design, implementation, test, defect decision, and final evidence record. - Source BR: BR-023 - Priority: UNSPECIFIED - Acceptance Condition: The system shall demonstrate: Approved business rules shall remain traceable through requirements, design, implementation, test, defect decision, and final evidence record.
